

DEBASHIS SATAPATHY

Aspiring Software Developer | Java & SpringBoot

+91-8144085077 • debashissatapathy2003@gmail.com • <https://www.linkedin.com/in/debashis-satapathy-839482232/> • <https://github.com/Debashish0065/>

EDUCATION

Bachelor of Technology in Computer Science & Engineering (Data Science)

Aug2021–Jun2025

Gandhi Institute of Engineering And Technology (GIETU), Gunupur

SKILLS

Languages: Java , Python , SQL

Backend: SpringBoot , SpringMVC , Microservices , RESTAPIs

Security&Auth: SpringSecurity , JWT

Database: MySQL , PostgreSQL

Testing: Postman, Swagger

Tools: Git , GitHub , Maven

Frontend: HTML , CSS , JavaScript , Bootstrap

SoftSkills: Problem-Solving , TeamCollaboration , Communication

PROJECTS

DineHub – Restaurant Management System

[Github](#)

- Developed a full-stack restaurant management system with secure authentication, menu, cart, order, and user management.
- Built REST APIs using Java, Spring Boot, Spring Security, Spring Data JPA, and MySQL with CRUD operations.
- **Skills:** Java, Spring Boot, Spring Security, Spring Data JPA, MySQL, REST APIs, Thymeleaf, HTML, CSS, Bootstrap.

Patient Management System|SpringBootMicroservices

[Github](#)

- Developed a microservices-based patient management system for patient records and appointment management.
- Built REST APIs with CRUD operations using Spring Boot, Hibernate/JPA, React.js, and MySQL.
- **Skills:** Java, Spring Boot, Microservices, React.js, MySQL, Hibernate/JPA, REST APIs.

Experience

Java Intern

Rinex|Online

- Completed a 60 – day intensive Core Java internship , building and debugging Java applications with focus on OOP,JDBC, collection and exception handling.

CERTIFICATIONS & AWARDS

- 5-Star Badge in Java , Python and MySQL in HackerRank
- AI for India 2.0 – Skill India(Python)
- Completed training in Java FullStack Development , Python , SQL , and WebDevelopment

ACHIEVEMENTS & EXTRACURRICULARS

- Developed production-ready web applications using Java and Spring Boot , demonstrating strong problem-solving and debugging skills.
- Demonstrated a strong self-learning mindset by independently mastering Java, Spring Boot, Microservices, and modern backend development through hands-on projects.
- Known for taking ownership of tasks, learning quickly, and maintaining a positive, solution-oriented approach in team environments.
